PREPARATION OF HYDROXYALKYLCARBAMATES FROM
SIX-MEMBERED ALKYLENE CARBONATES

ABSTRACT

5 A method of preparing hydroxyalkylcarbamates from six-membered cyclic carbonates.

The method involves reacting a six-membered cyclic carbonate with anhydrous ammonia or aqueous ammonium hydroxide. The present invention also provides for hydroxyalkylcarbamates prepared from six-membered cyclic carbonates, and for coating compositions comprising hydroxyalkylcarbamates prepared according to the present invention.
